WRDR fm 105

"The South Jersey Station"

October 28, 1991

Mr. Kermit Geary
1266 Riverview Drive
Walnutport, Penna. 18088

Dear Kermit:

This is to confirm your reception of WRDR-FM in Walnutport, Pa. the morning of thursday, October 24, 1991. I have duly noted and filed your report and all of the details stated in your letter.

For your DX Filing I have also included a fact sheet concerning WRDR. This past July 16th we increased our power to 25kw EPA. Since we are now a class B1 facility we are entitled to 25KW at 329 feet. We decided to go to 500 feet on a new tower located at Route 541 and Hamburg Avenue in Egg Harbor, New Jersey. This necessitated our dropping power output to 4.6 KW with a five bay antenna for the same result.

I notice that Walnutport is northwest of Allentown, Penna. Its suprising that we are being received in your area since there is a station in Scranton, Pa. on our frequency.

Thank you for taking the time to inform us of your reception and for your excellent and detailed report.

Yours very truly,

Jim Rodio
President/GM
